

FIZA WANGDI BHUTIA

Full Stack & Frontend Developer

+91 93828 83982 chat@wangdev.me wangdev.me unamoble.com github.com/wangdev-learns

PROFESSIONAL SUMMARY

Computer Science undergraduate and **Full Stack Developer** with practical experience building, deploying, and optimizing high-performance web applications and local business sites. Skilled in modern ecosystems including **Next.js 15, React 19, TypeScript, Tailwind CSS v4, Framer Motion, Node.js, Python, Django, and Prisma**. Combines agency-founder initiative with hands-on software development internship experience at Pixelstat eSolutions, specializing in responsive web architectures, fluid UI animation, performance optimization, and clean engineering practices.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SQL
Frontend	React 19, Next.js 15 (App Router), Tailwind CSS v4, Framer Motion, MDX, UI/UX Design
Backend & DB	Node.js, Express.js, Django, REST APIs, PostgreSQL, Prisma ORM, Resend API
CMS & Tools	WordPress, React Hook Form, Zod, Git, GitHub, Vercel, Hostinger, VS Code, Figma
Optimization	Technical SEO, PageSpeed Optimization, Image Processing (Sharp), Cross-Browser Testing

PROFESSIONAL EXPERIENCE

Founder & Web Developer — Unamoble Web Solutions

Darjeeling, WB | Present

- Client Digital Transformation:** Founded and manage a web development agency, delivering 5+ client websites that led to a 25% increase in direct reservation inquiries for local hospitality clients.
- Full-Lifecycle Engineering:** Architected, developed, and deployed modern web applications (Next.js/React) and custom responsive websites (HTML5/CSS3/JS, WordPress) from concept to launch.
- DevOps & Infrastructure:** Configured domain routing, SSL certificates, web hosting environments, and client site deployments with high availability.
- SEO & Performance Optimization:** Boosted average PageSpeed performance scores from ~65 to 95+ and improved organic search visibility by over 40% across client properties.

Web Development & Software Intern — Pixelstat eSolutions Development Pvt. Ltd.

Remote | Aug 2025 – Oct 2025

- Software & Web Development:** Completed a 60-hour intensive engineering program focused on Web Development, Python, Django, Databases, UI/UX, and Testing.
- Application Engineering & Debugging:** Applied practical concepts to build, maintain, and test web applications, ensuring high responsiveness and robust backend integration.
- Code Quality & Profiling:** Participated in testing workflows, UI profiling, and database optimizations within a real-world software engineering environment.

FEATURED PROJECTS

wangdev.me	Next.js 15 • React 19 • TypeScript • Tailwind v4 • Framer Motion • Prisma
Personal portfolio site with animated UI, MDX blogging, custom API routes via Resend for email handling, and React Hook Form + Zod validation.	
Unamoble Web Solutions	Next.js • React • Responsive UI • SEO
Official agency website engineered with dynamic routing, modern component architecture, and core web vitals optimization.	
Seven Pines Homestay	HTML5 • CSS3 • JavaScript
Mobile-first, responsive hospitality web presentation with optimized layouts and quick conversion paths.	
Martam Homestay	HTML5 • CSS3 • JavaScript
Clean, lightweight web application built for guest engagement and fast image asset delivery.	
Aruna's Homestay & Shakuntala Homestay	HTML5 • CSS3 • JS / WordPress
Responsive business web presences built with SEO best practices and fast cross-device rendering.	

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Expected Graduation: 2027

St. Joseph's College, Darjeeling, West Bengal

CORE STRENGTHS

Technical & Professional: Modern Full-Stack Architecture, Fluid UI Animation, API Integration, Form Validation, Client Communications, Agile Execution.
